

DRAFT BEER

Here at Ward 6, we think local first. So it is that all of our beer is from Minnesota, except Hamm's, which used to be made right next door but is now made by Miller in Milwaukee, and occasionally one seasonal "import," a beer (sometimes) from somewhere other than the land of 10,000 lakes.

We believe that our beer list offers many opportunities for experimenting, for trying new things, for expanding one's horizons. Our servers and bartenders are well-versed in the various beers we have to offer: please make use of their expertise. We happily provide samples if you're unsure. You may also consider ordering a glass of beer (a half-pint) so you can try several different offerings!

All pints are 6 bucks, except Hamm's (which is 3). High alcohol / limited release beers may come in 10 oz. portion. All "glasses" (half pints) of beer are 4 bucks (except Hamm's which is 2).
